

**Labor Memorial Day.**  
At the session of the Knights of Labor, in Louisville, Ky., it was voted unanimously to set apart the last Sunday in June as labor memorial day. This day will be observed by all the district assemblies in the United States. It was expressly stated that the day should not be regarded in the light of a holiday. It was fixed upon Sunday especially because it could not be made a holiday with its attendant festivities.

**WITH GREAT EXPRESSION.**  
"They tell me, Grimly, that your daughter sings with great expression." "Greatest expression you ever saw. Her own mother can't recognize her face when she's singing at her best."

**Dog Farms in China.**  
In Manchuria and all that part of China adjoining Mongolia there are thousands of farms devoted exclusively to dog raising. At each of these establishments several hundred dogs are kept, which are killed by strangulation when they are 8 months old, usually toward the middle of winter. At that time their skin is covered with very fine hair, and from these skins are made winter clothes for the inhabitants of the celestial empire. The dogs furnishing these skins are entirely different from the breed of dogs known here or in Europe, and their fur is said to be so long-haired and close on account of the extreme cold in that region.

These fur dogs constitute the only wealth of this desolate country, and the only dowry given to the daughters of these farmers consists of a number of dogs. The value of the dogs is about half a dollar, and as it takes eight fur dogs to make a coat, such an article is rather expensive.

Traffic in dog skins is centered in large cities like Moukden and Foo Chow, where they are tanned. At the first-named place the amount of dog skins handled last year represented half a million dollars.

**Fortunes in Laces.**  
Large sums of money are represented by fine old laces. It is said that the Astors own lace worth \$3,000,000, and that the Vanderbilts value theirs at \$4,000,000. The pope is content with only \$75,000 represented in lace, and the Princess of Wales boasts a collection worth \$250,000.

**Lewars of Ointments for Catarrh That Contain Mercury.**  
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used, except on the advice of a reputable physician, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure to get the genuine. It is taken internally, and is made in Toledo, Ohio, by F. J. Cheney & Co. T. Simmons free. Sold by Druggists price, 75c. per bottle. Hall's Family Pills are the best.

**Three Good Things.**  
Three good things about Tetterine, besides the one great, good fact that it cures, are that it is painless, harmless and has no bad odor. It is the only sure cure for Tetter, Ringworm, Eczema. Cures them so they stay cured. No matter how long you have had them, 50 cents in cash or stamps from J. T. Shapirine, Savannah, Ga.

The C. & N. W. Railroad Co. has added an immigration agency to their business, with W. A. Fair, of Lincoln, Neb., as agent. Most of their efforts will be to induce capitalists from the Northeast, who desire to engage in agriculture or manufacturing, to locate along this line of road. Lands have already been secured for the settlement of these colonists.

On November 1 some 500,000 acres of land in Wyoming are to be opened to settlement under the United States land laws. It is said to be fine land and is situated on Green River and along Big Piney, La Barge and Fontenelle creeks. It comprises eight townships in Vista County.

## THE REALM OF FASHION.

In spite of its long season of popularity, says May Manton, the little jacket still holds its place. The costume given in the illustration has the

MISSISS' WAIST WITH JACKET.

merit of being singularly well adapted to youthful figures while it is so simple as to be easily made. As shown the material is light-weight novelty of

braided or in rows or simple machine-stitched bands of the same. To make this cape for a lady in the medium size will require one and one-half yards of fifty-four-inch material.

### Neckwear.

The fancy ribbon tied round the neck in a bow at the back is pretty and becoming, but with stylish women is a fashion of the past, says Toilettes. For ordinary wear a puckered band of silk round the neck, with two pointed ears of silk embroidery falling over each side, or a frill standing out all round, is a becoming finish. A plain band with a velvet frill cut in a circle about three inches deep is a durable finish; the inner line of the circle should fit the collar, then the frill sets in flutes all round without any extra fullness next the throat; this may have a fine wire inserted in the edge so that the flutes may be arranged and kept regular. The velvet must be lined with silk either of the same or some pretty contrasting color, and a smarter effect is obtained if the edge is finished with a narrow jeweled passementerie. A full ruffle of lace or double chiffon with a rosette of the same, or a small bunch of flowers each side the neck, from which fall fan-shaped pleatings, is dressy and becoming; as also are ruffles composed of narrow velvet, finished by a jabot of lace in front.

### Long Coat For a Child.

Long coats are undoubtedly the favorites for wee tots' wear. In common with the wraps and gowns of their mothers, their materials are remarkable for richness before all else, but

CIRCULAR CAPE OF HEAVY BLACK ASTRAKHAN CLOTH.

silk and wool in a rich blue color. The trimming consists of fine black mohair braid arranged in straight bands. The full bodice is mounted on a fitted lining which is composed of the usual pieces and shows the usual seams. On it is arranged the plain yoke below which falls the full portion which is drawn in at the waist in gathers. The closing is effected invisibly at the centre-back and the neck is finished with a straight collar showing an upstanding frill of lace at the back. The sleeves are two-seamed and snug fitting except for the slight puff at the shoulder. The jacket is made entirely separate and has revers which are self-faced, and curved epaulettes which add breadth to the shoulders and so greatly enhance the effect. It is lined throughout with silk, both the revers and epaulettes having an entire lining of light-weight tailor's canvas. At the waist is worn a pointed bodice of the material closely banded with the braid.

The skirt is cut in the latest style and is five-gored with the new fan back. It is fitted smoothly across the hips and front, and laid in deep underlying plaits at the back to give the necessary spring. The trimming is arranged in hoop effect, but can be varied to suit the taste. The skirt is lined throughout with percaline and has an entire facing of hair cloth six inches in depth.

To make this waist and jacket for a miss of fourteen years will require two and one-fourth yards of forty-four-inch material. The jacket alone calls for seven-eighths of a yard. The skirt will require three and seven-eighths yards of the same width goods.

### Ladies' Circular Cape.

No other model, according to May Manton, ever entirely superseded the simple, circular one for the cape of general wear. The one shown in the double column picture is slightly longer than those of last year and has a high Medici collar as a finish. The material is heavy black astrakhan cloth which is quite plain and untrimmed. There is a single seam in the cape proper and one in the collar, both at the centre-back. The closing is effected invisibly by means of coat hooks and eyes. The model is lined throughout with satin. The edges are simply seamed and turned. Cloth, both with plain and rough surface, is appropriate.

Silks of all sorts, plaids, Roman stripes and figures, as well as plain satin, are used for linings. Where plain cloth is chosen the finish may be

CHILD'S COAT.

velvet, as shown, or the epaulettes may be of the material either fur or braid bound.

## A HARVEST OF HUMAN HAIR.

Millions of Pounds Every Year Get Tangled Up in Commerce.

Perhaps there is no staple article about which less is known by the average person than human hair as an article of commerce. It will doubtless surprise many when it is stated that the dealers in human hair goods do not depend on chance clippings here and there, but that there is a regular hair harvest that can always be relied upon. It is estimated that over 12,000,000 pounds of human hair are used annually in the civilized world or adorning the heads of women. In New York city alone over four tons of this class of goods are imported yearly.

"Not a little of the hair used in this country," said a New York dealer to the writer, "comes from the heads of American women and is fully as fine in shade and texture as the imported article. We had a big harvest during the craze that the fair sex had not long ago for having their hair cut short. Many thousands of women who then had their locks sheared have since bitterly regretted it, as in many instances their hair has grown so slowly that they have been compelled to wear a wig or a switch since the fashion changed. After the majority of women reach the age of thirty the hair seems to partially lose its vigor, and if cut it will not grow long again.

"Two-thirds of the ladies nowadays use false hair more or less. The decree of fashion, or the charm, is the reason, of course. One woman, for instance, has a high forehead and wishes to reduce it in appearance. Another has worn off the front hair by continued frizzing, and would like to conceal the fact. Both make use of a front or top piece, with a choice of many styles.

"Ladies' wigs cost from \$20 to \$200. Half wigs, top pieces and switches, from \$10 to \$50, according to quality.

"The largest supply of hair comes from Switzerland, Germany, and the French provinces. There is a human hair market in Merlans, in the department of the lower Pyrenees, held every Friday. Hundreds of hair traders walk up and down the one street of the village, their shears dangling from their belts, and inspect the braids which the peasant girls, standing on the steps of the houses, let down for inspection. If a bargain is struck the hair is cut, and the money paid on the spot, the price varying from 60 cents to \$5 in our money.

"A woman's hair may grow to the length of six feet. And I know a lady who has been offered and refused \$500 for her crown of glory, which is over six feet long. A single female hair will bear up a weight of four ounces without breaking, but the hair thus heavily weighted must be dark brown, for blonde hair breaks under a strain of two and one-half ounces. There are some 2,000 importers, manufacturers and dealers in human hair in the United States.

### Only a "Vooman."

A brawny Swede visited the Chicago city hall the other day to procure a marriage license, and a couple of clerks to whom he innocently stated his wishes directed him to the department where the dog licenses are issued.

He approached the license window diffidently, gave his name and address and asked what the document would cost.

"It will cost you \$1 a year for every dog you keep," replied the clerk.

"Dog?" echoed the Swede.  
"Why, certainly," continued the clerk, "don't you want a dog license?"  
"Hal, no," cried the would-be benedict. "Ay kainit afford to buy dog dees year. Ay want to get only a vooman now."

**An Odd Scraper.**  
A curious instrument possessed by everyone in China above the extremely poor is the tongue-scraper. The people may or may not have brushes, but they are sure to have a tongue-scraper. This scraper is a ribbon of silver or gold with a ring at one end by which it is suspended when desired. The cheapest are of plain metal, more expensive ones are engraved, while a few are jewelled at either end. Like hairpins, they are sold by weight, plus a small charge of workmanship.

Women can go to the Klondike if they want to, but there is no visible reason why they should. With reasonable effort they can be uncomfortable enough at home.

## GEORGIA LADIES

### HATE SHAMS:

**Mrs. R. A. Love**  
Whiteville, Ga., writes:  
Have used Dr. M. A. Simmons' Liver Medicine 15 years for Sick Headache, Costiveness, and no woman passing through the change of life should be without it. It acts on me more mildly and thoroughly than the "Liver Regulator" made by Zellin or the "Black Draught" made by Chattanooga Medicine Company.

### Nervous Depression of Women.

A woman will often without knowing it commit suicide for her family. She will think, toil and worry for her children, tired nerves and weary body at last reach a stage when she is almost powerless for any kind of mental or physical work, and she is depressed and worried over the consciousness that she is unable to perform her accustomed duties. Her organs of digestion are disordered and although there is a constant disposition to rest, wakefulness and loss of power to sleep are serious indications of nervous depression. What she needs is a course of Dr. Simmons' Squaw Vine Wine to restore a healthy functional activity and give tone and vitality to her nervous system. At the same time the stomach, liver and kidneys should be stimulated with Dr. M. A. Simmons' Liver Medicine.

### Is it better satisfaction.

**Jas. A. Banfill**  
Ball Ground, Ga., writes:  
I have known Dr. M. A. Simmons' Liver Medicine 20 years, and that it cures La Grippe, Headache and other complaints. I think it is stronger than "Zellin's Regulator" and "Black Draught" and that it gives better satisfaction.

**Pains in Lower Back.**  
After reaching maturity, and especially after passing through the experience of maternity, most women and their health seriously damaged, if not entirely impaired. The painful and weary dragging and bearing down sensation in the back almost every woman has at times experienced. Sometimes these are from uterine displacement, but often they are simply from weakness, and severe fatigue or to endure crushing disappointment, are subject to this and many other diseases. We cannot too strongly recommend the use of Dr. Simmons' Squaw Vine Wine, the great female tonic and regulator.

## FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

## McELREY'S Wine of Cardui

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefitted by it.
